

ET/DATA/S

Semiautomatic machine, complete of stampel, for the application of every kind of labels on cans up to 500 g. and bags up to 3 Kg. The labels can be completely wrapping up, partial or double side.

The ET/DATA/S labeller is a semi-automatic machine complete with stamp to apply any type of labels on cans up to 500 g and on bags up to 3 Kg. The labels can be partial, completely wrap-around or front and back.

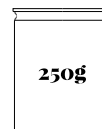

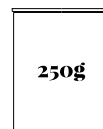

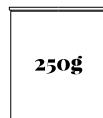

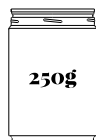

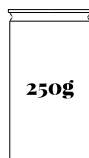

- Easy to use
Thanks to the simplified control panel, the machine is extremely simple and of immediate use.
- Flexible
With the simple replacement of the label reel, it is possible to customize the just in time cans. Suitable for labeling plastic and cardboard cans.
- With selfinking stamp
By means of a selector it is possible to include or not the stamping operation. The selfinking stamp allows you to produce thousands of pieces without stopping
