ET/DATA/AV

Fast automatic labeling machine with date display complete with entry and exit belt to be connected with the existing seamer, unwinder, orientation and labeling station, pneumatic printing head, paper rewinder and outgoing belt. Suitable for big cans.

Automatic universal fast machine to apply any type of labels on cans up to 3 kg. The labels can be partial, completely enveloping or front and back. Machine complete with date and lot stamp.

On request we can provide support for IoT system connections. In this case, the machine would comply in all respects with the requirements for the Industry 4.0 amortization plan.

For more information, please contact us.

- Easy to use
  Thanks to the semplified control panel, the machine is extremely simple and of immediate use.

- Also suitable for large formats
  By simply moving a roller it will be possible to label 10 kg cans.

- With selfinking stamp
  By means of a selector it is possible to include or not the stamping operation. The selfinking stamp allows you to produce thousands of pieces without stopping
