

IM/A/BP

Automatic plant for the packing of coffee beans, ground coffee, seeds, dried fruits, ingredients for the catering in metal cans with capacity up to 1 Kg. in normal atmosphere, vacuum-packed or in protective atmosphere with gas injection. Suitable for small cans.

Automatic plant to pack coffee beans, ground coffee, seeds, dried fruit, ingredients for catering in metal cans, with capacity up to 1 Kg. in normal atmosphere, vacuum-packed, or in a protective atmosphere with gas injection.

On request we can provide support for IoT system connections. In this case, the machine would comply with the requirements for the Industry 4.0 plan.

For more information, please contact us.

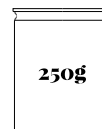

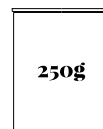

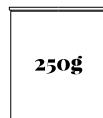

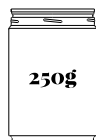

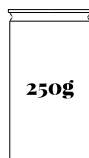

- Fully automatic
The IM/A/BP is able to independently perform the three main workflows (filling, closing and labeling).
- Optimized process control
The plant is structured to be able to follow the workings with a dynamic quality control, thanks to the best sensors currently present on the market.
- IoT
Thanks to the technologically advanced components, the IM/AP is able to connect to the most modern IoT systems and to transmit realtime important datas of the production.
