

AML/P

The first manual

Universal manual seamer to close metal, cardboard and plastic cans with capacity from 20 g. to 10 kg. The seamer type AML/P is a manual seamer that allows to carry out two operations out at the same time. The machine seams the cardboard pots and at the same time it carries the internal curl out on the opposite side. The practicalness of use and the simplicity in the change over place it in the first place as extremely flexible machine. Machine recommended for the START-UP or companies that intend to try on the market new products bounding the investments.

The machine AML/P is a manual seamer that allows to close tinplate, cardboard and plastic cans. The practicality of use and the simplicity in the change over place it in the first place as an extremely flexible machine. Machines recommended for START-UPS or companies that want to try new products on the market by limiting investments. We also guarantee that can be sealed cans that must be sterilized in autoclave.

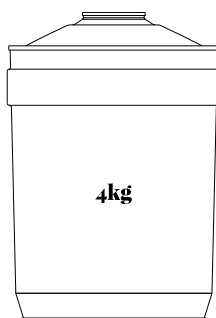

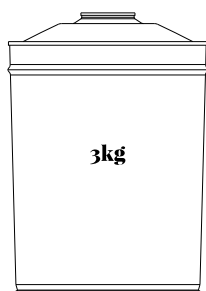

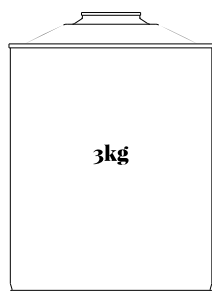

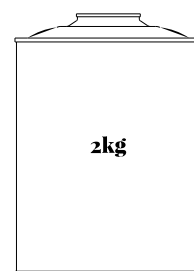

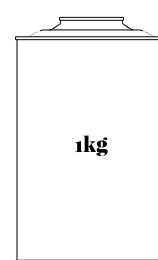

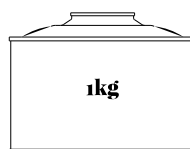

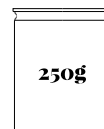

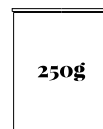

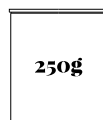

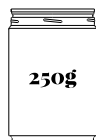

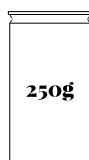

- **Easy to use**
The use of the machine is extremely simple, thanks to the control functions reduced to the minimum
- **Flexible**
By simply replacing the spindle it is possible to quickly change the packages to be produced. Suitable for packaging closure in: metal, cardboard and plastic.
- **Cheap**
Designed for those who want a reliable machine but want to safeguard investments. Ideal for small businesses, for those who want to open up to new markets and for START-UP.
