

AM/M₁/ROT

Universal universal semi-automatic seamer for closing cans in tinplate, cardboard and plastic with a capacity of 125 g. to 5 kg.

The practicality of use and the simplicity in the change over place it in the first place as an extremely flexible machine.

The AM/M₁/ROT machine is a semiautomatic seamer that allows to close cans of tinplate, cardboard and plastic from 125 g. to 5 Kg. The practicality of use and the simplicity in the change over place it in first place as an extremely flexible machine. Also excellent for cans that must be sterilized in an autoclave.

On request we can provide support for IoT system connections. In this case, the machine would comply in all respects with the requirements for the Industry 4.0 amortization plan.

For more information, please contact us

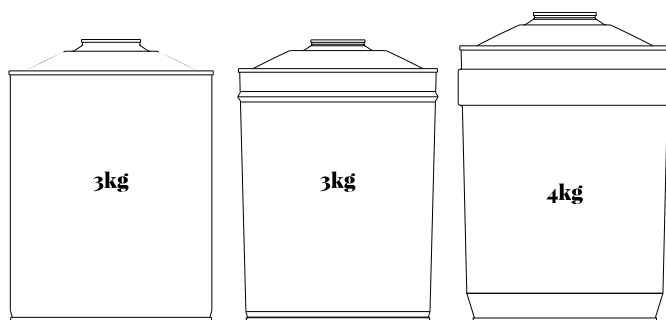

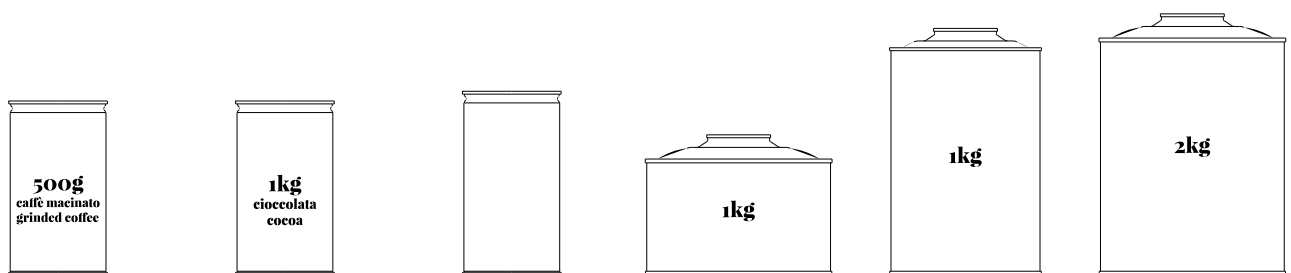

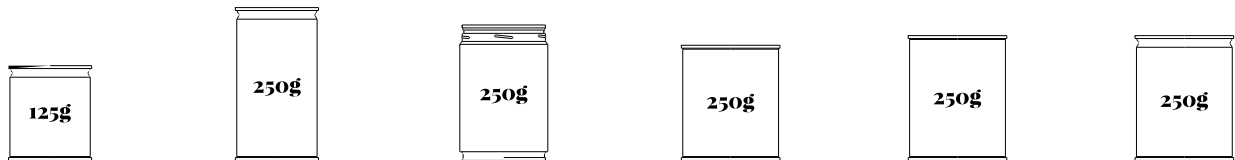

- **Easy to use**
Thanks to the simplified control panel, the machine is extremely simple and of immediate use.
- **Flexible**
By simply replacing of the spindle it is possible to change quickly the packages to be produced. Suitable for packaging in metal, cardboard and plastic.
- **Sturdy**
The first of the semiautomatic series is able to support industrial production. Built with excellent materials and equipped with top quality components such as: SIEMENS electrical and electronic components, FESTO pneumatic systems and SKF supports.
