

AM/M₁/ROT/SV/IG

Semiautomatic seamer to close tin plate cans of 250 g. in standard atmosphere, vacuum-packed or in protective atmosphere with gases injection.

The AM/M₁/ROT/SV/IG machine is a semiautomatic seamer that allows to close cans of tinplate from 125 to 500 g in a normal atmosphere, vacuum-packed or in a protective atmosphere.

On request: we can provide support for IoT system connections. In this case, the machine would comply in all respects with the requirements for the Industry 4.0.

For more information, please contact us.

- Perfect preservation

Developed for those who need to guarantee the quality of the content over time, thanks to packaging in a protective atmosphere.

- High performance

Thanks to the development of particular technologies developed by us, the AM / M₁ /ROT / SV / IG is able to obtain the lowest % of residual oxygen, guaranteeing a greater longevity in the preservation of the packaged product.

- Safety

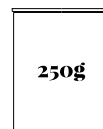

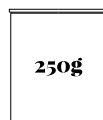

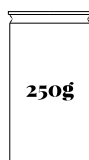

Through photoelectric barriers, safety is guaranteed in all processing phases, safeguarding the operator's safety during routine operations.
