

ET/DATA/U

Semiautomatic universal machine for the application of every kind of labels on cans up to 3 Kg. The labels can be completely wrapping up, partial or double side. The machine is complete of stampel for date and lot.

On request: we can supply support for IoT system connections. In this case, the machine would comply in all respects with the requirements for the Industry 4.0 amortization plan.

For further informations, please contact us.

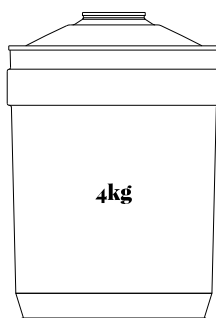

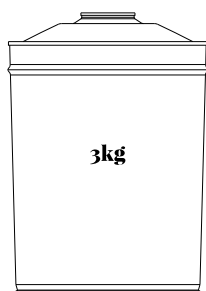

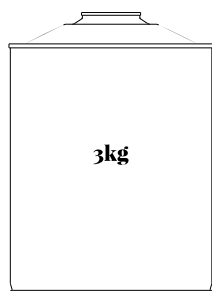

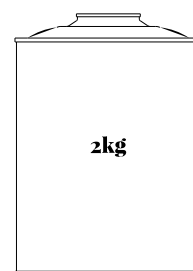

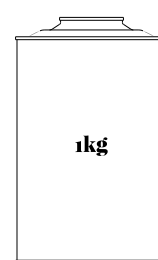

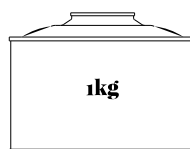

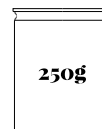

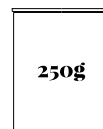

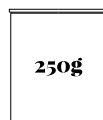

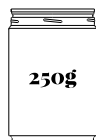

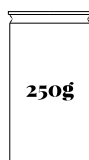

- Easy to use
Thanks to the simplified control panel, the stain is extremely simple and of immediate use.
- Suitable for large formats
Moving simply a roller it will be possible to label cans from 125 g. to 10 Kg.
- With selfinking stamp
By means of a selector it is possible to include or not the stamping operation. The selfinking stamp allows you to produce thousands of pieces without stopping.
